<http://www.urdrh.com>

Important dates:

- Abstract submission deadline: June, 30, 2017;
- Notification of acceptance: July, 5, 2017;
- Paper submission deadline: November, 30, 2017;
- Notification of paper acceptance: December, 15, 2017.

Conference facilities:

- Accommodation and food for participants during the conference's days will be provided by the organizers of the conference;
- Travel tickets will be at the expense of the participants.

N. B.: A training workshop is held for the Ph. D. students to present and discuss presentations during the conference.

INTRODUCTION:

The Human Resources Development Research Unit at the University of Mohamed Lamine Dabbaghin (Sétif 2) organizes the 10th International Conference on "The Status of Consciousness in Modern Psychology" on 29 & 30, January 2018 at the University of Setif 2, Algeria. The conference is open to all researchers and interested in the subject of conscience and human personality to share their research and scientific experiences in evaluating the march of psychology in Algeria.

The Conference Problem:

Affectivity includes the sum of *emotions* (emotions caused by a particular trigger) and *excitements* (feelings that have vague and unclear causes). Since affect plays an important role in the life of both the individual and community, it affects greatly the thought and behavior, and, in return, affect is influenced by them as well. Besides, it leads to some attitudes and prevents from others; it decides on some ideas and prevents others because of the two factors of sentiment and emotion— and their great influence in thought and behavior. Together with mind and body, affect forms the third area of human personality.

Although the fields of both mind and body have been addressed by researchers in psychology for decades, the conscious field has been highlighted only in recent years. In the Arab world, the affect studies are still in their embryo stage. Therefore, this conference has come to highlight this important area in human life.

Objectives of the conference:

The international conference seeks to achieve the following objectives:

- ✚ Highlight the role of affect in human life;
- ✚ Present the principles of emotional design of objects, products and practices;
- ✚ Highlight the emotional intelligence and its different dimensions;
- ✚ Acknowledge of modern tools in the measurement of affectivity.

Conference Themes:

- ✚ The importance of affect in human life;
- ✚ The relationship of affect with other components of human personality;
- ✚ Emotional intelligence;
- ✚ Emotional design of objects and products;
- ✚ Measurement of affectivity in psychology;
- ✚ Approaching affectivity in education-
- ✚ Building curricula and teaching through emotional approach.

Invitees to the conference:

- Teachers and professors of Universities, university centers, and specialized institutes;
- Researchers and post- graduate students;
- Psychologists working in different institutions;
- Relevant organizations, businessmen and people interested in psychology.

Terms for accepted papers:

- 1- The research should be connected to one of the themes of the conference;
2. The research should be novel and never be submitted, or published before;
- 3- Research articles should be written in Arabic, French, or English;
- 4 - The research should be formatted and published in accordance with the rules of scientific research recognized in the writing of scientific research.
5. The participation form, together with the abstract, should be sent electronically before June, 30, 2017;
6. In case of abstract acceptance, the full version of research papers must be sent by November, 30, 2017;
7. N. B.: During the conference's days, a scientific workshop will be organized for Ph.D students on measurement tools in educational and psychological research.
