Press Release

The Ministry of Higher Education and Scientific Research wishes to inform all of the PhD fellow students who are applying for an extending of their study allowances abroad due to the closure of some research laboratories during the lockdown period, that their requests are being processed by high level national experts, each of them in his/ her respective area of competence, and that this expertise shall be delivered in respect of the principles that determine the spirit of the Exceptional National Program (PNE) namely : the obligation to achieve results and a proof of complete dedication and commitment.

The decisions resulting from these expertise will be announced and sent to the concerned fellows in the same way in which they have been introduced.
